We have in person groups in Bayswater and Box Hill for those looking to connect, support and share strategies. For those who can't get to an in-person group, we also have a variety of online peer support groups to check out!

Parenting can be hard, and we all need extra support and skills to break old habits and improve our relationships with our children. Come along to one of our groups, meet other like-minded parents, and find new ways to enjoy parenting.

We feel privileged to be walking alongside you on your parenting journey.

Family Services

Children have the best outcomes in life when they grow up with the support of a healthy family. The goal of Family Services – Anglicare Victoria's largest service area – is to keep families safely together.

Anglicare Victoria's Family Services teams support thousands of vulnerable families across Victoria every year, offering a broad range of inclusive family and parenting services and programs.

Family support workers visit families at home, meeting face-to-face in the place where they feel most in control. They work alongside parents to help them build skills and awareness, resulting in safer and more caring environments for their children.

They connect families with other specialist services when this is needed, such as mental health, family violence, disability or alcohol and other drugs.

Children are at the centre of all discussions and great care is taken to make sure the voice of the child is heard throughout the process

Safe Care

Parent/Child Interaction/Parent Infant Interaction:

To increase positive interactions they have with their children during play and daily activities. PCI can also help to reduce challenging behaviours in young children.

Health: This module helps parents and caregivers to prepare for when their child is sick or injured and recognise when symptoms need emergency care, a doctor's appointment or cared for at home.

Home Safety: This module helps parents and caregivers to identify and remove common household hazards and understand the importance of child supervision.
